

SUGGESTED GIVING CHART

We realize there are many factors besides income that are considered when deciding how much to give. These factors could include current debt, amount of savings, housing, health concerns, emergency situations, retirement, and other life events. This chart, however, can provide a general guide for deciding how much to give.

For example, if you make \$40,000 a year, we request that you consider signing up for a monthly automatic contribution of between \$17 to \$67. If you make \$150,000 a year, we request that you consider signing up for a monthly gift of between \$250 to \$625.

Annual Income	Monthly Income	Percent of Income (Monthly)
